Trach Pod

L&D

NICU

Patented peanut shape allows for range of motion
Meets AAP Safe Sleep Standards
Double zipper for easy clinical access
Recreates the comfort and security of the womb

Woombie

Med Pods

Woombie Med Pods are 360 degree, medically-minded swaddles that promote developmental care and accommodate the treatment needs of neonatal patients. They are designed to work in hospital/critical care environments allowing for clinical access while providing comfort and support.

Med Pod

Provides the comfort and security of a swaddle while still allowing for clinical access and procedural support from birth to six months.

Bili Pod

Swaddle during phototherapy treatment with nearly 95% of light transmission through the mesh fabric.

Sleepy Pod

Meets AAP Safe Sleep Standards and promotes flexion and comfort for full term healthy newborns.

Trach Pod

Features a deep V-neck for respiratory and cardiac care or for easy access to an oncology patient's port-a-cath or broviac.

Gastro Pod

Swaddle with a midsection that opens to provide easy clinical access for gastrointestinal or umbilical needs.
