

## New distributor of MAD Nasal in Denmark

Medidyne has signed an agreement with Teleflex, for exclusive distribution of their LMA MAD Nasal Intranasal Mucosal Atomization Device in Denmark, Sweden and Norway. Medidyne takes over the distribution from GM Medical A/S the 1<sup>st</sup> of October 2016.

The LMA<sup>®</sup> MAD Nasal<sup>™</sup> Device is the safe and painless way to deliver medication with rapid absorption across mucosal membranes to your patient's blood stream without an intravenous line.

Medidyne's product range from Teleflex now includes Arrow EZ-IO Intraosseous Infusion System for vascular access and the LMA MAD Nasal Intranasal Mucosal Atomization Device.

If you have inquiries or want to order products please see our contact points to the right or visit our website at [www.medidyne.dk](http://www.medidyne.dk)

We are sorry to inform you that Teleflex currently has a back order situation with Mad Nasal which means limited or no product availability throughout 2016.

Best regards,  
Medidyne
