

# InspectAED™ Mobile App

Now Available on Google Play and the App Store

## Ready and Compliant

AEDs, while easy to use, require ongoing management and inspections to make certain they are Ready and Compliant. A well-designed AED programme includes testing and maintaining your devices according to manufacturers' guidelines and local regulations.

## Two Clicks Away

Customers who have purchased AED programme management can now log into their account using iPhone or Android to record the routine inspection from their web-enabled mobile device. With just two clicks and fewer than 30 seconds, we can Guarantee your compliance and readiness to use an AED right from the palm of your hand.

**Download the InspectAED mobile app from Google Play or the App Store**

## Our Programme Your Guarantee

Every AED programme manager wants to do everything possible to guarantee the best possible chance of saving a life. But that's not easy to guarantee if all you have is a pencil and a piece of paper—or even a computer and a spreadsheet. A formal online AED management programme built with ZOLL's PlusTrac™ could make your life a lot easier.

**Contact us and discover how PlusTrac provides the peace of mind that comes with knowing your organisation is fully prepared to battle sudden cardiac arrest.**
